The stencils on IAF F-16s, in general, are in English and quite similar to other worldwide F-16s, with some exceptions.

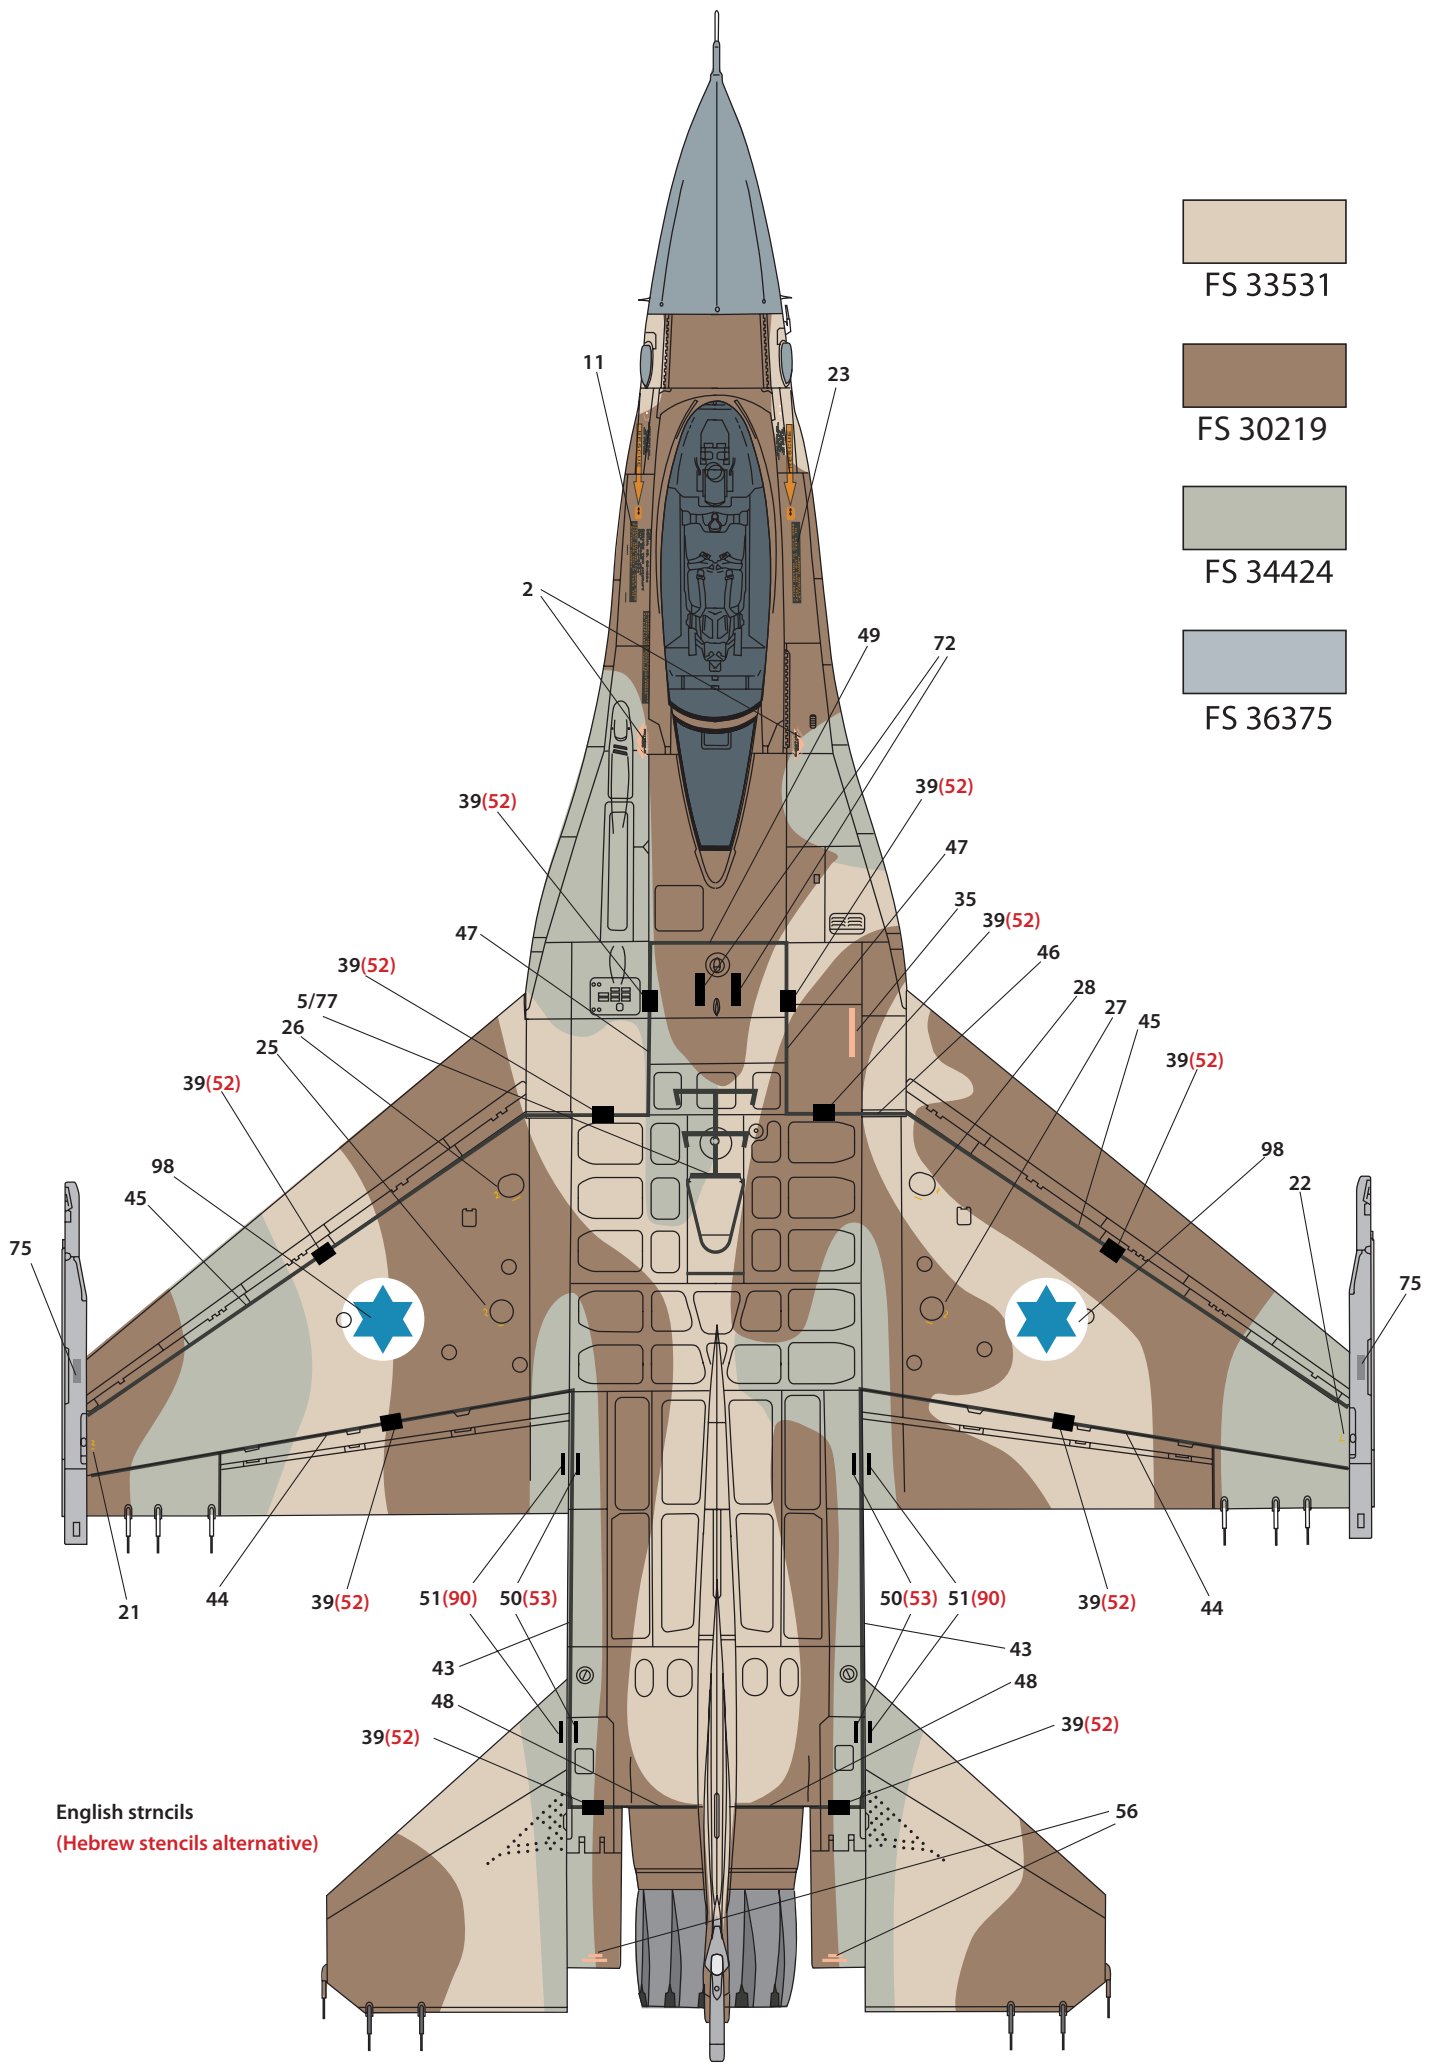

The original stencils painted by Lockheed Martin are included in the markings for FS 36118 Gunship Grey and FS 32356 Pink/Orange. Rescue arrows are mandatory in Yellow on IAF aircraft.

During the years of service, some aircraft had their stencils changed from Gunship grey to Black and from Pink/Orange to Red. On other occasions, they were painted in the original colors. Check your photos to choose the correct stencils.

In recent years, Hebrew Walkway / No Step has replaced the traditional English ones.
